PRACTICAL OBSERVATION CHECKLIST

PRACTICAL 1 CHECKLIST

ICT TECHNICIAN LEVEL 5 –

MODULE 2, TERM 2

UNIT OF COMPETENCE: PERFORM COMPUTER OPERATIONS
UNIT CODE: 0611 351 02A

ELEMENT: MANIPULATE COMPUTERIZED SPREADSHEET

INSTRUCTIONS TO THE ASSESSOR

1. *Observe the candidate throughout the practical assessment and award marks only for activities that are correctly performed and demonstrated according to the stated assessment requirements.*
2. *Record the candidate's score immediately after observing each activity, providing relevant comments where necessary to indicate strengths, errors, or areas requiring improvement.*
3. *Assess the candidate fairly and consistently, ensuring that the Product Checklist and Oral Assessment are scored separately and are not included in the 50 practical-performance marks.*

CUTTING LIST

Item	Quantity	Provided By
Desktop computer/laptop	1 per candidate	Institution
Microsoft Excel or approved spreadsheet application	1 per computer	Institution

Printer	1	Institution
Printing paper (A4)	As required	Institution
Internet/network connection	1	Institution
Assessment paper/instructions	1 per candidate	Institution
Candidate writing pen	1 per candidate	Candidate
USB flash disk for saving work	1 per candidate	Candidate
Candidate name/identification details	1 per candidate	Candidate
Access to a suitable workstation	1 per candidate	Institution

TASK 1: CREATE AND ENTER DATA IN A WORKBOOK

(10 MARKS)

No .	Activity Observed	Allocated Marks	Candidate Score	Comments
1	Opened the spreadsheet application and created a new workbook	2	82	Excel opened new workbook created
2	Renamed the first worksheet Sales Report and created and renamed the second worksheet Summary	2	82	Renamed worksheet to Sales Report Summary respectively
3	Entered the given product names, January, February, March sales figures and Price per Unit accurately	4	84	Data entered correctly
4	Added the Total Units and Total Sales column headings correctly	1	81	Columns added
5	Saved the workbook using the required filename Student_Spreadsheet_Practical.xlsx	1	81	Workbook saved
	SUB-TOTAL	10	10	Great

TASK 2: CELL REFERENCING, FORMULAS AND FUNCTIONS

(15 MARKS)

No.	Activity Observed	Allocated Marks	Candidate Score	Comments
1	Calculated Total Units using an appropriate relative cell reference formula and filled the formula down correctly	4	04	calculated using appropriate formula
2	Entered the 16% Tax Rate and calculated tax amount using an absolute cell reference	4	00	calculated but wrong result
3	Created a calculation table and demonstrated the use of an appropriate mixed cell reference	3	09	calculation table created but wrong reference
4	Used appropriate spreadsheet functions to calculate Total Sales, Average Sales, Maximum Sales and Minimum Sales	3	03	sum, max, min, average calculated
5	Created the Performance column and used the IF function to classify products as Good or Needs Improvement	1	09	

SUB-TOTAL

15

09

TASK 3: WORKSHEET EDITING AND DATA MANIPULATION**(10 MARKS)**

No.	Activity Observed	Allocated Marks	Candidate Score	Comments
1	Inserted one new row above the existing data and inserted a new column before Price per Unit , entering an appropriate heading	3	03	Inserted new row and new column before Price per Unit
2	Adjusted row height and column width so that headings and data were clearly visible	2	02	Row and column adjusted
3	Copied the Sales Report worksheet, renamed it Sales Report Copy , and moved it after the Summary worksheet	3	00	Sales Report not copied
4	Deleted the Sales Report Copy worksheet correctly	1	00	Sales Report Copy not deleted
5	Edited the specified sales figures, added Flash Disk with sample sales figures, and inserted the Lookup worksheet	1	01	Edited the specified sales figures

SUB-TOTAL	10	04
-----------	----	----

TASK 4: LOOKUP FUNCTIONS AND WORKSHEET FORMATTING

(8 MARKS)

No.	Activity Observed	Allocated Marks	Candidate Score	Comments
1	Entered the Product and Category lookup table correctly on the Lookup worksheet	2	02	lookup table entered
2	Added a Category column to the Sales Report and used an appropriate XLOOKUP or VLOOKUP function to retrieve categories	3	03	Added a category column - used VLOOKUP
3	Applied appropriate font style, font size and bold formatting to the main headings	1	01	- font style, font size and bold done
4	Applied centre alignment, borders and shading to the data table appropriately	1	01	- done correctly
5	Adjusted column widths appropriately for clear presentation	1	01	widths adjusted
	SUB-TOTAL	8	08	

TASK 5: CHART GENERATION AND WORKBOOK PRINTING

(7 MARKS)

No.	Activity Observed	Allocated Marks	Candidate Score	Comments
-----	-------------------	-----------------	-----------------	----------

1	Selected the appropriate Product and Total Units data and created a suitable column chart	3	03	column chart created using data
2	Added the chart title Total Units Sold by Product , axis titles and data labels correctly	2	02	chart title added
3	Positioned the chart appropriately on the worksheet and configured suitable page orientation, margins and print area	1	01	chart positioned appropriately
4	Ensured the worksheet and chart were appropriately fitted and printed the completed Sales Report worksheet	1	01	sales report printed
	SUB-TOTAL	7	07	

PRACTICAL PERFORMANCE SUMMARY

Task	Allocated Marks	Candidate Score
Task 1: Create and Enter Data in a Workbook	10	06
Task 2: Cell Referencing, Formulas and Functions	15	09
Task 3: Worksheet Editing and Data Manipulation	10	10
Task 4: Lookup Functions and Worksheet Formatting	8	08
Task 5: Chart Generation and Workbook Printing	7	07
TOTAL PRACTICAL MARKS	50	40

PRODUCT CHECKLIST

SEPARATE FROM THE 50 PRACTICAL MARKS

No.	Product Criteria	Allocated Marks	Candidate Score	Comments
1	Workbook is correctly saved as Student_Spreadsheet_Practical.xlsx	2	0/2	Saved as stated
2	Required worksheets are correctly created, named and arranged	3	0/3	Worksheets created
3	Data has been entered accurately and calculated results are correct	4	0/4	Some calculations are not accurate
4	Relative, absolute and mixed cell references are correctly demonstrated	3	0/3	Not correctly done
5	Lookup results correctly display the appropriate product categories	3	0/3	Lookup function works well
6	Worksheet is professionally formatted with appropriate headings, borders, alignment and shading	2	0/2	Good but not up to the standard
7	Column chart is correctly generated, titled, labelled and presented	2	0/2	column chart have a title is well labelled and presented
8	Printed output is complete, clear and properly arranged	1	0/1	Printing done
TOTAL PRODUCT MARKS		20	15	

PRODUCT CHECKLIST = 20 MARKS

ORAL ASSESSMENT CHECKLIST

(30 MARKS)

No.	Question	Expected Answer	Allocated Marks	Candidate Score	Comments
1	What is a spreadsheet?	A software application used to organize, calculate, analyse and present data in rows and columns.	3	02	full definition has given.
2	Differentiate between a workbook and a worksheet.	A workbook is the spreadsheet file containing one or more worksheets, while a worksheet is an individual sheet within the workbook.	4	04	differentiated
3	What is a cell?	The intersection of a row and a column where data or formulas can be entered.	2	02	Correct definition given
4	What is relative cell referencing?	A reference that changes automatically when a formula is copied or moved.	3	03	Key words implied
5	What is absolute cell referencing?	A fixed cell reference that does not change when a formula is copied, e.g. \$B\$2.	3	03	

6	What is mixed cell referencing?	A reference where either the row or column is fixed while the other changes, e.g. \$A1 or A\$1.	3	83	defined
7	What is the purpose of the IF function?	It tests a condition and returns one result when the condition is true and another when it is false.	3	87	
8	State four spreadsheet functions used in data calculations.	SUM, AVERAGE, MAX and MIN.	3	83	stated functions used in data calculations
9	What is the purpose of a lookup function such as VLOOKUP or XLOOKUP?	It searches for a value and returns related information from a specified data range.	3	87	Incomplete explanation
10	Why is print setup important before printing a worksheet?	It ensures that the worksheet is properly arranged, readable and fits appropriately on the printed page.	3	87	stated one reason
	TOTAL		30	422	

ASSESSMENT SUMMARY

Assessment Component	Maximum Marks	Candidate Score
Practical Performance	50	
Product Checklist	20	40 15
Oral Assessment	30	22
TOTAL ASSESSMENT	100	77

Assessor comments

Ensure full review about cell referencing that is absolute and mixed cell referencing -

Feedback from the candidate

The exam was fair
