

THE ABERDARE TECHNICAL COLLEGE

LEARNING PLAN – COMPUTER OPERATIONS

1. INSTITUTIONAL DETAILS

Item	Details
Module	Module 1
Unit of Competence	Computer Operations
Unit Code	To be confirmed
Trainer	JAMES NDIRANGU
Competence Level	Level 5
Institution	THE ABERDARE TECHNICAL COLLEGE
Number of Learners	1
Date of Preparation	04/09/2026
Duration	12 Weeks
Training Approach	Demonstration, guided practice, discussion, individual practical exercises and assessment

SKILL OR JOB TASK

Perform computer operations by processing word documents, manipulating spreadsheets, maintaining computerized databases, preparing presentations, manipulating graphic applications, performing document production, and participating in online and mobile collaboration.

2. BENCHMARK OR CRITERIA TO BE USED

1. Process computerized word document

- 1.1 Ergonomics risk factors observed as per work place procedures*
- 1.2 Word document is created as per work requirements*
- 1.3 Tables are created and manipulated as per work requirements*
- 1.4 Mail merging is performed as per work requirements*
- 1.5 Word processing Objects are inserted as per user requirements*
- 1.6 List of figures and table of content are generated as per user requirements*
- 1.7 Computerized Word documents are printed as per workplace procedure.*

2. Manipulate computerized spreadsheets

- 2.1 Spreadsheet workbook is created as per work requirements*
- 2.2 Cell referencing is performed as per task requirements*
- 2.3 Formula and functions are applied as per work requirements*
- 2.4 Charts are generated as per work requirements*

3. Maintain computerized database

- 3.1 Computerized database user requirements are collected as per work requirements.*

3.2 Computerized database schemas are designed as per task requirements.

3.3 Creation of Computerized database objects as per task requirements.

3.4 Data manipulation is performed as per task requirements.

4. Prepare Power point presentation

4.1 PowerPoint Presentation requirements are collected as per work requirements

4.2 PowerPoint slides are created as per work requirement

4.3 Presentation views are exhibited as per work requirements.

4.4 Animations and transitions are performed as per work requirements

4.5 PowerPoint slides are manipulated as per work requirements

4.6 PowerPoint slides are printed as per work requirements

5. Manipulate graphic application

5.1 Identifying graphic design requirements

5.2 Graphic design created as per task requirements

5.3 Graphic design published as per the task requirements

6. Perform document production

6.1 Document is printed as per user specifications

6.2 Documents are scanned as per user specifications

6.3 Documents are duplicated as per user specifications

7. Perform Online Collaboration

7.1 Identification of Online collaboration tools as per the task requirements

7.2 Prepare online collaboration as per the task requirements.

7.3 Apply online collaborative tools as per the task requirements.

7.4 Demonstrating Mobile collaborations as per task requirements

3. LEARNING PLAN

MAIN LEARNING OUTCOME 1: PROCESS COMPUTERIZED WORD DOCUMENT

WEEK 1 – SESSIONS 1 AND 2

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
1	Process computerized word document	Session 1: Ergonomics and Introduction to Word Processing Subtopics: 1.1	By the end of this session the trainee should be able to;	1. Trainer explains common ergonomics risk factors and demonstrates a correct workstation	1. Trainee identifies ergonomics risk factors and observes the correct workstation arrangement. 2. Trainee responds to questions on	Computer, projector,	Oral questions	_____

			processors . 4. Differentiate between major types of word processors .	between different word processors.				
1	Processes computerized word documents	Session 2: Creating, Editing and Formatting Word Documents Subtopics: 1.2.3	1. Create a new word document. 2. Apply text editing features. 3. Apply	1. Trainer demonstrates how to create and save a word document. 2. Trainer demonstrates text editing	1. Trainee creates and saves a new word document. 2. Trainee applies text editing operations. 3. Trainee applies paragraph editing operations. 4.	Computer, word processor, sample documents	Practical exercise and observation	_____

		Creating word document; 1.2.4 Editing and formatting word document; 1.2.5 Text editing; 1.2.5.1 Text editing; 1.2.5.2 Paragraph editing; 1.2.5.3 Document editing	paragraph editing features. 4. Edit a complete word document.	operations. 3. Trainer demonstrates paragraph editing operations. 4. Trainer provides a document-editing task and guides the trainee.	Trainee edits the provided document according to instructions.			
--	--	--	---	--	---	--	--	--

WEEK 2 – SESSIONS 3 AND 4

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
2	Process computerized word document	Session 3: Word Document Formatting Subtopics: 1.2.6 Word document formatting features; 1.2.6.1 Text formatting; 1.2.6.2 Paragraph	By the end of this session the trainee should be able to; 1. Identify word formatting	1. Trainer demonstrates common formatting features. 2. Trainer demonstrates font type, size, style and	1. Trainee identifies the demonstrated formatting features. 2. Trainee applies the specified text formatting. 3.	Computer,	Practical formatting task	_____

		formatting; 1.2.6.3 Document formatting	features. 2. Apply text formatting. 3. Apply paragraph formatting. 4. Format an entire document according to given specifications.	effects. 3. Trainer demonstrates paragraph alignment, indentation and spacing. 4. Trainer provides formatting specifications for a document.	Trainee applies the specified paragraph formatting. 4. Trainee formats the document according to the given specifications.	word processor, projector, sample document		
2	Process computerized word document	Session 4: Enhancing Word-Processing Productivity Subtopics:	1. Identify basic word-processing preferences. 2. Configure basic	1. Trainer demonstrates basic application preferences. 2. Trainer	1. Trainee identifies the available preferences. 2. Trainee configures the	Computer, word processor, projector,	Practical observation and oral questions	_____

		1.2.7.1 Set basic options/preferences; 1.2.7.2 Help resources; 1.2.7.3 Magnification/zoom; 1.2.7.4 Display/hide built-in toolbar	application options. 3. Use help resources to solve simple problems. 4. Apply zoom and toolbar display options.	guides the trainee in configuring selected options. 3. Trainer demonstrates how to access help resources. 4. Trainer demonstrates zoom and toolbar display/hide functions.	selected application options. 3. Trainee uses help resources to find answers to assigned questions. 4. Trainee applies zoom and toolbar display/hide functions.	internet/help resources curriculum OS		
--	--	--	---	--	---	---	--	--

WEEK 3 – SESSIONS 5 AND 6

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
3	Process computerized word document	Session 5: Creation and Manipulation of Tables Subtopics: 1.3 Creation and manipulation of tables; 1.3.1 Inserting tables; 1.3.2 Working with tables	1. Identify the uses of tables in word documents. 2. Create tables using appropriate methods. 3. Manipulate rows and columns. 4. Format tables according to document requirements.	1. Trainer explains applications of tables in documents. 2. Trainer demonstrates how to insert tables. 3. Trainer demonstrates manipulation of rows, columns and	1. Trainee identifies appropriate uses of tables. 2. Trainee inserts tables using the demonstrated methods. 3. Trainee manipulates rows, columns and cells. 4.	Computer, word processor, sample data	Practical table creation task	

				cells. 4. Trainer demonstrates table formatting and gives a practical task.	Trainee formats tables and completes the practical task.			
3	Process computerized word document	Session 6: Mail Merge Subtopics: 1.4 Mail merge; 1.4.1 Mail merge preparation; 1.4.1 Mail merge output	1. Explain the purpose of mail merge. 2. Prepare a mail merge document and data source. 3. Apply mail merge fields. 4. Generate mail merge output.	1. Trainer explains the purpose and components of mail merge. 2. Trainer demonstrates preparation of the main document and data source. 3.	1. Trainee explains the purpose of mail merge. 2. Trainee prepares the main document and data source. 3. Trainee inserts the appropriate	Computer, word processor, sample recipient data	Individual mail merge practical	

				Trainer demonstrates insertion of merge fields. 4. Trainer demonstrates previewing and generating the final output.	merge fields. 4. Trainee previews and generates the mail merge output.			
--	--	--	--	---	--	--	--	--

WEEK 4 – SESSIONS 7 AND 8

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
4	Process computerized word document	Session 7: Word Processing Objects and Automatic Lists Subtopics: 1.5 Pictures; 1.5.2 Shapes; 1.5.3 Tables; 1.5.4 Charts; 1.6 List of figures; 1.6.2	By the end of this session the trainee should be able to; 1. Insert pictures, shapes, tables and charts. 2.	1. Trainer demonstrates insertion of pictures, shapes, tables and charts. 2. Trainer demonstrates object resizing, positioning and editing. 3. Trainer	1. Trainee inserts pictures, shapes, tables and charts. 2. Trainee resizes, positions and edits the objects. 3. Trainee applies captions and generates a	Computer, word processor, sample document, images	Practical document production task	

		Table of contents	Edit inserted objects. 3. Generate a list of figures. 4. Generate a table of contents.	demonstrates use of captions and generation of a list of figures. 4. Trainer demonstrates heading styles and automatic table of contents generation.	list of figures. 4. Trainee applies heading styles and generates a table of contents.			
4	Process computerized word document	Session 8: Printing Word Documents Subtopics:	1. Identify important print settings. 2.	1. Trainer explains important print settings. 2.	1. Trainee identifies important print settings. 2. Trainee	Computer, printer, word processor, paper	Practical assessment / CAT 1	_____

		1.7 Printing computerized word document; 1.7.1 Print setup; 1.7.2 Printing	Configure page and printer settings. 3. Preview a document before printing. 4. Print a correctly formatted document.	Trainer demonstrates page setup and printer selection. 3. Trainer demonstrates print preview. 4. Trainer demonstrates printing and provides an individual printing task.	configures the required settings. 3. Trainee previews the document before printing. 4. Trainee prints the document according to the specifications.			
--	--	---	---	--	---	--	--	--

MAIN LEARNING OUTCOME 2: MANIPULATE COMPUTERIZED SPREADSHEET

WEEK 5 – SESSIONS 9 AND 10

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
5	Manipulate computerized spreadsheet	Session 9: Spreadsheet Concepts and Workbook Creation Subtopics: 2.1.1 Spreadsheet concepts; 2.1.2 Elements of spreadsheet window; worksheet;	By the end of this session the trainee should be able to; 1. Define spreadsheet concepts. 2. Identify elements of a spreadsheet	1. Trainer explains spreadsheet concepts. 2. Trainer demonstrates the spreadsheet window and its elements. 3. Trainer asks the trainee to	1. Trainee defines the spreadsheet concepts. 2. Trainee identifies elements of the spreadsheet window. 3. Trainee differentiates between	Computer, MS Excel/LibreOffice Calc, projector	Oral questions and practical task	

		workbook; rows; columns; cells	window. 3. Differentiate between a worksheet and workbook. 4. Create a spreadsheet workbook.	distinguish between worksheets and workbooks. 4. Trainer demonstrates creation and saving of a workbook.	worksheets and workbooks. 4. Trainee creates and saves a workbook.			
5	Manipulate computerized spreadsheet	Session 10: Cell Referencing and Worksheet Editing Subtopics: 2.2.1 Relative, absolute and mixed referencing; 2.2.2 Worksheet	1. Explain cell referencing. 2. Differentiate relative, absolute and mixed references. 3.	1. Trainer explains cell referencing. 2. Trainer demonstrates the three types of cell references. 3. Trainer	1. Trainee explains cell referencing. 2. Trainee differentiates relative, absolute and mixed references. 3.	Computer, spreadsheet application, sample workbook	Practical exercise	_____

		editing; inserting/removing rows and columns; row height and column width; inserting, renaming, moving, copying and deleting worksheets	Apply cell references in formulas. 4. Manipulate worksheets by inserting, renaming, moving, copying and deleting them.	demonstrates use of references in formulas. 4. Trainer demonstrates worksheet editing operations.	Trainee applies the different references in formulas. 4. Trainee performs the demonstrated worksheet editing operations.			
--	--	--	--	---	--	--	--	--

WEEK 6 – SESSIONS 11 AND 12

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
6	Manipulate computerized spreadsheet	Session 11: Data Entry and Manipulation Subtopics: 2.2.3.1 Data entry; 2.2.3.2 Types of data	By the end of this session the trainee should be able to; 1. Identify common spreadsheet data types. 2. Enter data accurately. 3.	1. Trainer explains common spreadsheet data types. 2. Trainer demonstrates accurate data entry. 3. Trainer demonstrates how different data types	1. Trainee identifies common spreadsheet data types. 2. Trainee enters data accurately. 3. Trainee differentiates the various data types. 4. Trainee manipulates	Computer, spreadsheet application,	Practical data entry exercise	_____

			Differentiate text, numeric, date and other data types. 4. Manipulate spreadsheet data according to requirements.	behave in cells. 4. Trainer provides data manipulation exercises.	the spreadsheet data according to the exercise.	sample datasets		
6	Manipulate computerized spreadsheet	Session 12: Formulas and Functions Subtopics: 2.3.1.1 Formula and function syntax; 2.3.1.2 Arithmetic	1. Explain formula and function syntax. 2. Construct spreadsheet formulas. 3.	1. Trainer explains formula and function syntax. 2. Trainer	1. Trainee explains formula and function syntax. 2. Trainee constructs	Computer, spreadsheet software, sample data	Practical formula/function exercise	_____ ____

		functions; 2.3.1.3 Logical functions; 2.3.1.4 Lookup functions	Apply arithmetic and logical functions. 4. Apply lookup functions to retrieve data.	demonstrat es constructio n of formulas. 3. Trainer demonstrat es arithmetic and logical functions. 4. Trainer demonstrat es lookup functions using sample data.	formulas. 3. Trainee applies arithmetic and logical functions. 4. Trainee applies lookup functions to retrieve information.			
--	--	---	--	---	--	--	--	--

WEEK 7 – SESSIONS 13 AND 14

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
7	Manipulate computerized spreadsheet	Session 13: Spreadsheet Formatting Subtopics: 2.3.2.1 Font styles; 2.3.2.2 Alignment; 2.3.2.3	By the end of this session the trainee should be able to; 1. Identify spreadsheet	1. Trainer identifies and demonstrates formatting features. 2. Trainer demonstrates font and	1. Trainee identifies the formatting features. 2. Trainee applies font and alignment formatting. 3.	Computer, spreadsheet software, sample workbook	Practical formatting exercise	

		Borders and shading; 2.3.2.4 Header and footer	formatting features. 2. Apply font styles and alignment. 3. Apply borders and shading. 4. Insert headers and footers.	alignment formatting. 3. Trainer demonstrates borders and shading. 4. Trainer demonstrates insertion of headers and footers.	Trainee applies borders and shading. 4. Trainee inserts appropriate headers and footers.			
7	Manipulate computerized spreadsheet	Session 14: Chart Generation Subtopics: 2.4.1.1 Types of charts; 2.4.1.2	1. Identify common chart types. 2. Select appropriate charts for given data. 3. Create charts	1. Trainer explains common chart types. 2. Trainer provides datasets and asks the	1. Trainee identifies common chart types. 2. Trainee selects appropriate charts for the	Computer, spreadsheet application, datasets, projector	Chart-generation practical	

		Insert charts; 2.4.1.3 Labelling and editing charts	from spreadsheet data. 4. Edit and label charts appropriately.	trainee to select appropriate charts. 3. Trainer demonstrates chart insertion. 4. Trainer demonstrates chart labelling and editing.	given datasets. 3. Trainee creates charts from the data. 4. Trainee labels and edits the charts appropriately.			
--	--	---	--	---	---	--	--	--

WEEK 8 – SESSIONS 15 AND 16

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
8	Manipulate computerized spreadsheet	Session 15: Spreadsheet Printing Subtopics: 2.4.1.4 Workbook printing; 2.4.1.5 Print setup; 2.4.1.6 Printing	By the end of this session the trainee should be able to; 1. Identify spreadsheet	1. Trainer explains spreadsheet print options. 2. Trainer demonstrates print setup. 3.	1. Trainee identifies spreadsheet printing options. 2. Trainee configures print settings. 3.	Computer, spreadsheet software, printer, paper	Practical printing task	

			printing options. 2. Configure print settings. 3. Preview worksheets before printing. 4. Print a spreadsheet workbook.	Trainer demonstrates print preview and page arrangement. 4. Trainer demonstrates printing a workbook.	Trainee previews the worksheet. 4. Trainee prints the workbook according to specifications.			
8	Manipulate computerized spreadsheet	Session 16: Integrated Spreadsheet Practical Subtopics: Workbook creation, cell	1. Apply spreadsheet creation skills. 2. Analyse a given dataset. 3.	1. Trainer provides an integrated spreadsheet task. 2. Trainer asks the	1. Trainee applies spreadsheet creation skills to the task. 2. Trainee	Computer, spreadsheet software, printer, practical task sheet	CAT 2 / Practical assessment	

		referencing, data entry, formulas/functions, formatting, charts and printing	Construct formulas and functions. 4. Create a formatted workbook and chart. 5. Evaluate the final workbook against given requirements.	trainee to analyse the given requirements and dataset. 3. Trainer guides the trainee in developing formulas and functions. 4. Trainer observes workbook and chart creation. 5. Trainer	analyses the requirements and dataset. 3. Trainee constructs the required formulas and functions. 4. Trainee creates and formats the workbook and chart. 5. Trainee evaluates the completed workbook against the			
--	--	--	--	--	--	--	--	--

				guides the trainee in checking the completed workbook.	requirements			
--	--	--	--	--	--------------	--	--	--

MAIN LEARNING OUTCOME 3: MAINTAIN COMPUTERIZED DATABASE

WEEK 9 – SESSIONS 17 AND 18

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
9	Maintain computer	Session 17: Database Concepts	By the end of this session the	1. Trainer introduces database	1. Trainee defines database	Computer, MS Access/LibreOffice Base, sample	Oral questions and	_____

	ized database	and User Requirements Subtopics: 3.1.1 Introduction to database; key concepts; database organization; database relationships ; database operations; 3.1.2 Collection of user requirements	trainee should be able to; 1. Define database concepts. 2. Explain database organization and relationship s. 3. Describe common database operations. 4. Collect database	concepts. 2. Trainer explains database organization and relationship s. 3. Trainer demonstrates common database operations. 4. Trainer provides a scenario and guides the trainee in collecting	concepts. 2. Trainee explains database organization and relationship s. 3. Trainee describes common database operations. 4. Trainee collects user requirements from the	databases, projector	requiremen ts collection exercise	
--	------------------	--	---	--	--	----------------------	--	--

			user requirement s.	requirement s.	given scenario.			
9	Maintain computer ized database	Session 18: Database Schema Design Subtopics: 3.2 Design computerize d database schema; 3.2.1 Creating database models; 3.2.1.1 ERD models; 3.2.1.2	1. Explain database schema. 2. Identify entities, attributes and relationship s. 3. Create an ERD model. 4. Convert an ERD into a basic relational model.	1. Trainer explains database schema design. 2. Trainer demonstrate s identificatio n of entities, attributes and relationship s. 3. Trainer demonstrate	1. Trainee explains database schema design. 2. Trainee identifies entities, attributes and relationship s. 3. Trainee creates an ERD from the given	Computer, database software, draw.io/ERD tool, projector	ERD and relational model practical	

		Relational models		s creation of an ERD. 4. Trainer demonstrate s conversion of the ERD into a relational model.	requirement s. 4. Trainee converts the ERD into a relational model.			
--	--	-------------------	--	--	--	--	--	--

WEEK 10 – SESSIONS 19 AND 20

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
10	Maintain computer ized database	Session 19: Database Objects Creation Subtopics: 3.3.1 Tables; records;	By the end of this session the trainee should be able to;	1. Trainer identifies and explains database objects. 2. Trainer demonstrate	1. Trainee identifies major database objects. 2. Trainee differentiate	Computer , database software, sample data	Practical database creation	_____

		fields; keys; forms; queries; reports	1. Identify major database objects. 2. Differentiate tables, records, fields and keys. 3. Create tables and define fields and keys. 4. Create forms, queries and reports.	s the difference between tables, records, fields and keys. 3. Trainer demonstrate s creation of tables, fields and keys. 4. Trainer demonstrate s creation of forms, queries and reports.	s tables, records, fields and keys. 3. Trainee creates tables and defines fields and keys. 4. Trainee creates forms, queries and reports.			
--	--	---------------------------------------	--	--	--	--	--	--

10	Maintain computerized database	Session 20: Database Data Manipulation and Printing Subtopics: 3.4.1 Inserting records; 3.4.2 Retrieving records; 3.4.3 Deleting records; 3.4.4 Updating records; 3.4.5 Printing tables, forms,	1. Enter database records. 2. Retrieve required records. 3. Update and delete records appropriately. 4. Print tables, forms, queries and reports.	1. Trainer demonstrate record entry. 2. Trainer demonstrate record retrieval using appropriate methods. 3. Trainer demonstrate updating and deleting records. 4. Trainer demonstrate printing	1. Trainee enters records into the database. 2. Trainee retrieves the required records. 3. Trainee updates and deletes records according to instructions. 4. Trainee prints the required tables,	Computer, database software, printer, sample database	Practical database manipulation	
----	--------------------------------	---	---	---	--	---	---------------------------------	--

		queries and reports		database objects.	forms, queries and reports.			
--	--	---------------------	--	-------------------	-----------------------------	--	--	--

MAIN LEARNING OUTCOME 4: PREPARE POWERPOINT PRESENTATION

WEEK 11 – SESSIONS 21 AND 22

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
11	Prepare Power Point	Session 21: PowerPoint Requirements,	By the end of this session the	1. Trainer defines common	1. Trainee defines common	Computer, MS PowerPoint/Impr ess, projector	Practical PowerPoint task	_____

	present ation	Slides and Presentation Views Subtopics: 4.1.1 Definition of terms; 4.1.2 Presentation requirements; 4.1.3 Types of presentation software; 4.1.4 Elements of presentation window; 4.2.1 Types of presentation layout; 4.2.2 Factors to	trainee should be able to; 1. Define common presentation terms. 2. Identify presentation requirements and software. 3. Select appropriate slide layouts. 4. Design and	presentation terms. 2. Trainer identifies presentation requirements and types of software. 3. Trainer demonstrates selection of appropriate slide layouts. 4. Trainer demonstrates	presentation terms. 2. Trainee identifies presentation requirements and software. 3. Trainee selects appropriate slide layouts. 4. Trainee designs, creates and saves a presentation			
--	------------------	--	--	--	--	--	--	--

		consider when designing presentation layout; 4.2.3 Design a PowerPoint presentation; 4.2.4 Create a PowerPoint presentation; 4.2.5 Save a PowerPoint presentation; 4.3 Exhibition of presentation views; slide views; working with presentations;	create a PowerPoint presentation n. 5. Demonstrate different presentation views.	designing, creating and saving a presentation n. 5. Trainer demonstrates different slide views and switching between presentations.	n. 5. Trainee demonstrates different slide views and switches between open presentations.		
--	--	---	--	---	---	--	--

		switching between open presentations						
11	Prepare Power Point present ation	Session 22: Animation, Transitions and Slide Manipulation Subtopics: 4.4.1 Slide animation; 4.4.2 Slide transition; 4.5.1 Adding data/text; 4.5.2 Formatting data/text; 4.5.3 Move/copy/del ete slide; 4.5.4	1. Apply animation and transition effects. 2. Add and format text and data. 3. Manipulat e slides by moving, copying and deleting them. 4. Insert	1. Trainer demonstrat es slide animation and transitions. 2. Trainer demonstrat es adding and formatting text and data. 3. Trainer demonstrat es moving,	1. Trainee applies appropriate animation and transition effects. 2. Trainee adds and formats text and data. 3. Trainee moves, copies and deletes	Computer, PowerPoint, projector, sample presentation	Practical observation	_____

		Header and footer; 4.5.5 Tables and charts	headers, footers, tables and charts.	copying and deleting slides. 4. Trainer demonstrates insertion of headers, footers, tables and charts.	slides. 4. Trainee inserts headers, footers, tables and charts.			
--	--	---	--------------------------------------	---	--	--	--	--

MAIN LEARNING OUTCOME 5: MANIPULATE GRAPHIC APPLICATION

WEEK 12 – SESSIONS 23 AND 24

Week	Main Learning	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
------	---------------	---------------------------	------------------	--------------------	--------------------	-----------	------------	-----------------------

	Outco me							
12	Manipulate graphic application	Session 23: Graphic Design Requirements and Publication Creation Subtopics: 5.1.1 Definition of terms; 5.1.2 Graphic application requirements ; 5.1.3 Types of graphic application	By the end of this session the trainee should be able to; 1. Define common graphic design terms. 2. Identify graphic application requirements and	1. Trainer explains common graphic design terms. 2. Trainer identifies graphic application requirements and software. 3. Trainer displays and explains different publication designs. 4.	1. Trainee defines common graphic design terms. 2. Trainee identifies graphic application requirements and software. 3. Trainee differentiates the publication types. 4. Trainee	Computer, graphic application software, projector, sample publications	Practical graphic design task	

		software; 5.1.4 Publication designs – templates, banners, booklets, brochures, flyers, posters, cards, certificates and magazines; 5.1.5 Elements of graphic application window;	software. 3. Differentiate common publication types. 4. Select an appropriate publication type. 5. Create a publication using appropriate page settings.	Trainer guides the trainee in selecting an appropriate publication type. 5. Trainer demonstrates page setup, rulers, guides and page views.	selects an appropriate publication type. 5. Trainee creates a publication using appropriate page settings, rulers, guides and views.			
--	--	--	--	--	---	--	--	--

		5.2.1 Publication type, page setup, ruler/guides and page views						
12	Manipulate graphic application	Session 24: Publication Content, Formatting, Graphics and Printing Subtopics: 5.2.2 Add content; 5.2.3 Edit content; 5.2.4 Format text and	1. Add, edit and format content in a publication. 2. Apply page formatting features. 3. Manipulate textboxes, tables, shapes and	1. Trainer demonstrates adding, editing and formatting publication content. 2. Trainer demonstrates columns, borders, headers,	1. Trainee adds, edits and formats publication content. 2. Trainee applies the demonstrated page formatting features. 3. Trainee	Computers, graphic software, printer, scanner, internet, Microsoft Teams/Skype/Google Drive/Zoom/Google Meet/Slack, email, mobile device	Integrated practical assessment / CAT 3	

		paragraphs; 5.2.5 Columns, borders/shading, headers/footers, background, watermarks, orientation; 5.2.6 Textboxes, tables, shapes, pictures; PNG, JPEG, GIF; 5.3.1 Prepare publication;	pictures. 4. Prepare and print a publication. 5. Identify document production and online collaboration tools. 6. Demonstrate basic online collaboration and mobile synchronization skills.	footers, backgrounds, watermarks and orientation. 3. Trainer demonstrates insertion and manipulation of textboxes, tables, shapes and pictures. 4. Trainer demonstrates publication preparation and printing. 5. Trainer	inserts and manipulates textboxes, tables, shapes and pictures. 4. Trainee prepares and prints the publication. 5. Trainee identifies document production and online collaboration tools. 6. Trainee demonstrates			
--	--	--	--	---	--	--	--	--

		5.3.2 Print setup; 5.3.3 Printing publication; 6.1–6.3 Document production; 7.1–7.4 Online collaboration		introduces document production and online collaboration tools. 6. Trainer demonstrates basic online collaboration , mobile applications, permissions and synchronizati on.	basic online collaboration and mobile synchronizati on.			
--	--	--	--	--	---	--	--	--
