OBSERVATION CHECKLIST

SOFTWARE TESTING(Software Practical 3)

Assessment Details

Unit code	0619 451 06A
Element	Element 2: Test Computer Software Functionality
Assessment	Formative, Software Practical 3, 2026 (Term 3, Module 3)
Tool and API	Postman; https://jsonplaceholder.typicode.com
Time allowed	2 hours
Total marks	35 (Practical 30 + Product 5)
Candidate name	Joy Mwiraji
Assessor name	
Date of assessment	30/10/2026
Venue	Computer lab 2b

Instructions to the Assessor

1. Observe the candidate while each task is performed and do not assist.
2. Award 1 mark for an item that is fully met and 0 for an item that is not met or only partly met. No half marks.
3. Write the mark in the Candidate score column and the evidence or reason in the Remarks column.

4. Compare written answers with the expected values shown in the items to be evaluated.
5. Assess the Product Checklist after the candidate has submitted the documents, JSON export, and screenshots.
6. Total the scores, apply the cut-off, and complete the Decision Outcome and signatures.

Part 1: Practical Checklist (30 marks)

No.	Item to be evaluated	Allocated marks	Candidate score	Remarks
SETUP: Collection				
1	Created a collection named correctly (YourName_REST_Practical)	1	1	Collection created
2	Saved all requests inside the collection	1	1	saved Requests
3	Named each request clearly (e.g., Task 1 - GET All Users)	1	1	Named
	Subtotal	**3**	3	
TASK 1: Retrieve all users				
4	Sent GET to /users and showed the status code, response time, and size	1	1	Retrieved
5	Stated the correct number of users (10)	1	1	stated
	Subtotal	**2**	2	
TASK 2: Retrieve a single user				
6	Sent GET to /users/3 correctly	1	1	Sent Get

7	Recorded the correct name, username, and email (Clementine Bauch, Samantha, Nathan@yesenia.net)	1	1	Recorded
	Subtotal	**2**	2	
TASK 3: Query parameters				
8	Added userId = 2 using the Params tab (not typed in the URL)	1	1	added userId = 2
9	Recorded the correct number of posts returned (10)	1	1	Recorded Post
	Subtotal	**2**	2	
TASK 4: Create a new post (POST)				
10	Selected POST, used the correct URL, and entered valid JSON in Body > raw > JSON	1	1	Posted using POST
11	Stated status code 201 and explained that it means the resource was created	1	1	Stated as 2 and meaning
12	Identified the assigned id (101)	1	1	Identified
	Subtotal	**3**	3	

TASK 5: Update a post (PUT)

13	Sent PUT to /posts/1 with the full JSON body (own name in the title)	1	1	sent PUT method request with name in title
14	Confirmed the updated values in the response and recorded status 200	1	1	confirmed
	Subtotal	**2**	2	
TASK 6: Partial update (PATCH)				
15	Sent PATCH to /posts/1 with only the title field	1	1	sent with title only
16	Explained the difference: PUT replaces the whole resource, PATCH changes only the fields sent	1	1	Explained the difference
	Subtotal	**2**	2	
TASK 7: Delete a post (DELETE)				
17	Sent DELETE to /posts/1 correctly	1	1	sent
18	Recorded status 200 and explained its meaning (request succeeded; deletion is simulated)	1	1	Recorded status code as 200
	Subtotal	**2**	2	
TASK 8: Trigger a 404 error				
19	Sent GET to /users/9999 and obtained status 404	1	1	sent error given 404

20	Recorded the response body (empty object {})	1	0	recorded empty
21	Explained why the error occurred (the resource does not exist)	1	0	Explained
	Subtotal	**3**	~~0~~ 0/2	
TASK 9: Status code meanings				
22	Gave correct meanings for 200 and 201 in own words	1	0	Meaning Ouch
23	Gave correct meanings for ~~400~~ and 401 ~~in~~ own words	1	~~0~~ 1/2	Correct 401 ~~Expect~~ 400 Incorrect
24	Gave correct meanings for 403 and 500 in own words	1	0	Correct
	Subtotal	**3**	2 1/2	
TASK 10: Variables and test scripts				
25	Created the collection variable baseUrl with the correct value	1	0	~~Create~~
26	Changed the Task 1 URL to {{baseUrl}}/users	1	0	change Task base / URL use
27	Entered the test script correctly in the Tests tab	1	0	entered the script
28	Resent the request and the test shows Passed in Test Results	1	~~Reject~~ 0	Reset

	Subtotal	**4**	64	
PROFESSIONAL CONDUCT				
29	Worked independently and followed the written instructions	1	6	
30	Completed the practical within the 2-hour time limit	1	6	
	Subtotal	**2**	6 ✓	
	PRACTICAL TOTAL	**30**	28/2	

Part 2: Postman Checklist (5 marks)

No.	Item to be evaluated	Allocated marks	Candidate score	Remarks
1	Exported collection (JSON) submitted, opens correctly, and contains all 10 task requests	1	1	Exported
2	Screenshots provided for all tasks showing method, URL, body (where applicable), status code, and response	1	1	Provided Screenshot
3	Screenshots are clear and legible; Task 10 shows the test as Passed	1	1	
4	Answers document is complete and accurate for all written questions (Tasks 1 to 9)	1	1	
5	Submission is organised: document, JSON file, and screenshots submitted together and labelled by task	1	1	Submitted organized
	PRODUCT TOTAL	**5**	05	

Passed

Decision Outcome

Total score: 24 / 35 **Percentage:** _____ %

Decision:

☒ Competent (C): the cut-off was met in all components

☐ Not Yet Competent (NYC): the cut-off was not met

Areas of strength:

None

Areas needing improvement:

None

***If Not Yet Competent*, action to be taken:**

☐ Reassessment on (date): _____

☐ Remedial training on: _____

☐ Resubmit the product only

Assessor comments:

Declarations

Candidate: *I confirm that this work is my own and that I have been informed of the assessment outcome.*

Assessor: *I confirm that the assessment was conducted fairly, and the decision is based on the evidence observed.*
