ABERDARE TECHNICAL COLLEGE

INFORMATION COMMUNICATION TECHNOLOGY

Unit: computer operations

Unit code: UNIT CODE: 0611 351 02A

Module 1, Term 1

Practical 3

Time 3 hours

Total 40 marks

Instructions to the Candidate

1. Read all the tasks carefully and complete each task as instructed within the allocated time.
2. Save your work using the required filename and ensure the presentation is properly formatted and functional.
3. Present your completed work to the assessor for assessment.

Materials Required

1. Desktop computer with Microsoft PowerPoint installed.
2. Printer.

PART A: PRACTICAL ASSESSMENT

Assessment task

You have been requested to prepare a Microsoft PowerPoint presentation titled "The Role of ICT in Technical and Vocational Education and Training (TVET)" for presentation to students and trainers.

Use Microsoft PowerPoint or compatible presentation software to create a professional presentation by completing the tasks below.

Task 1: Create a new presentation

Instructions:

1. Switch on the computer and log in using the available account.
2. Open Microsoft PowerPoint.
3. Create a new blank presentation.
4. Select an appropriate design theme for an educational presentation.
5. Save the presentation in your designated working folder using the filename ICT_TVET_Presentation_YourName.pptx.

Task 2: Create and design slides

Instructions:

1. Create six slides in your presentation.
2. Use the following content for each slide:

- Slide 1: Title slide — The Role of ICT in TVET, candidate name and date.
- Slide 2: Definition of ICT and PowerPoint presentation.
- Slide 3: Importance of ICT in TVET.
- Slide 4: ICT tools and their uses in TVET.
- Slide 5: A chart showing an example of ICT tools used by students.
- Slide 6: Conclusion and recommendations.

3. Apply appropriate slide layouts to suit the content of each slide.
4. Use suitable colours, font sizes and text alignment.
5. Ensure the slides are readable and consistent in appearance.

Task 3: Format slide text

Instructions:

1. Select the title on each slide and apply appropriate font formatting.
2. Use a larger font size for slide titles than for body text.
3. Apply bold formatting to important terms where necessary.
4. Change font colours where appropriate to improve readability.
5. Align the text properly and ensure that it fits within the slide area.
6. Avoid overcrowding slides with too much text.

Task 4: Insert a table

Instructions:

1. Open Slide 4.
2. Insert a table containing three columns and at least three rows.
3. Label the columns ICT Tool, Use in TVET and Benefit.
4. Enter at least three examples of ICT tools and their uses.

5. Apply a suitable table style.

6. Adjust the column widths so that the information is clearly visible.

Task 5: Insert a chart

Instructions:

1. Open Slide 5.
2. Insert a suitable chart, such as a column chart or bar chart.
3. Use the title “ICT Tools Used by Students”.
4. Enter the following sample data:

ICT Tool	Number of Students
Computers	30
Smartphones	25
Projectors	10
Tablets	15

5. Ensure the chart displays the categories and values correctly.
6. Apply a suitable chart style and make the chart easy to read.
