ABERDARE TECHNICAL COLLEGE

OBSERVATION CHECKLIST

ICT MODULE 4 – LEVEL 5

UNIT: Computer Programming Principles

UNIT CODE: 0613 451 05A

PRACTICAL 1

COMPUTER PROGRAMMING

TIME: 2 HOURS

1. Trainer and Candidate Details

Details	Information
Trainer/Assessor Name	James
Trainer/Assessor Number	
Candidate Name	KHAN MARCUS
Candidate Admission Number	878
Qualification	ICT Level 5
Module	Module 4
Unit Code	0613 451 05A
Date of Assessment	13/10/2026

these ranges:

Assessment Venue	ATC LAB-
Start Time	8:50AM
End Time	~~8~~ 10:50AM

2. Cutting List

No.	Item	Quantity	Provided by
1	Desktop computer or PC	1 per candidate	Institution
2	Code::Blocks with GNU GCC compiler or online C compiler	1 per candidate	Institution
3	Internet connection, if using an online compiler	As required	Institution
4	Practical question paper	1 per candidate	Institution

3. Practical Observation Checklist — 30 Marks

Question 1: Voting Eligibility — 13 Marks

No.	Practical task / observation criteria	Allocated Marks	Candidate Score	Comments
1	Includes the required header file and declares the integer variable age.	3	03	
2	Prompts the user to enter their age and accepts input using scanf().	3	03	
3	Applies the if...else statement correctly to determine voting eligibility.	4	04	
4	Displays the correct message for both eligible and ineligible voters.	3	03	

Conditions

- If the age is 18 or above, display Eligible to vote.
- Otherwise, display Not eligible to vote.

Question 2: Temperature Message

Write a C program that takes an integer temp (temperature in °C) and prints a message based on

	TOTAL — QUESTION 1	13	B	

Question 2: Temperature Message — 17 Marks

No.	Practical task / observation criteria	Allocated Marks	Candidate Score	Comments
1	Declares the integer variable temp, prompts the user and accepts temperature input.	3	2	-Variable declared as temperature
2	Uses the correct condition to display Freezing for temperatures below 0°C.	2	2	used the correct condition for freezing
3	Uses the correct condition to display Cold for temperatures from 0°C to 15°C.	2	2	-cold condition used
4	Uses the correct condition to display Pleasant for temperatures from 16°C to 25°C.	2	2	-correct condition for pleasant used
5	Uses the correct condition to display Warm for temperatures from 26°C to 35°C.	2	2	-Uses the correct condition to display warm
6	Uses the final else to display Hot for temperatures above 35°C.	2	2	Correct condition
7	Uses the correct if...else if...else structure with appropriate braces and program structure.	2	2	- Correct statement used
8	Compiles and executes the program and saves it as q2.c, or submits the code and output when using an online compiler.	2	1	-compiled -not saved
	TOTAL — QUESTION 2	17	15	

Practical Observation Summary

Assessment item	Allocated Marks	Candidate Score
Question 1: Voting Eligibility	13	13
Question 2: Temperature Message	17	15
TOTAL PRACTICAL OBSERVATION	30	28

- Otherwise, display Not eligible to ...

... based on

4. Product Checklist — 5 Marks

No.	Product criteria	Allocated Marks	Candidate Score	Comments
1	Question 1 source code is complete and correctly saved as q1.c, or submitted online.	1	~~0~~ 1/2	source code complete
2	Question 1 produces the correct output for voting eligibility.	1	0	correct output
3	Question 2 source code is complete and correctly saved as q2.c, or submitted online.	1	1/2	source code complete
4	Question 2 displays the correct messages for all five temperature ranges.	1	0	displays the correct message.
5	Both programs have clear prompts, readable formatting and appropriate output.	1	0	clear prompts
	TOTAL PRODUCT CHECKLIST	5	04	

Decision Outcome

Assessment outcome:

☑ Competent

☐ Not Yet Competent

Assessor's Name: James Ndirangu

Assessor's Signature: _____ Date: 13/01/2026

Assessor's Comments

Program source code OK and general syntax good.

determine whether the person is eligible

Conditions

- If the age is 18 or above, display Eligible to vote.
- Otherwise, display Not eligible to vote.

9. Candidate's Feedback

.....Easy.....to.....work.out.....with.....clear.....instructions.....provided.....

.....

The candidate should provide feedback on the assessment process, instructions, resources and any challenges experienced.

Candidate's Name: KARIMI MARCUS

Candidate's Signature: _____ Date: 13/10/2026

Assessor's Signature: _____ Date: 13/10/2026
