Observation Checklist

Institution: Aberdare Technical College
Information Communication Technology
Module 4, Practical 3
Unit: Database
Unit code: 0612 451 08A
Time allowed: 3 hours
Marks: Process checklist 50 marks. Product checklist 5 marks.

Assessor and Candidate Details

Assessor Details

Field	Details
Assessor's full name	James Ndirangu
Assessor's ID / Registration No.	
Institution / Assessment centre	
Assessor's phone / email	
Assessor's signature	

Candidate Details

Field	Details
Candidate's full name	BRIAN MAINA
Registration / Index No.	535
Course / Level	ICT
Class / Group	
Institution	ABERDARE TECHNICAL COLLEGE

Formative practical database, checklist 3

Assessment Details

Field	Details
Module / Unit title	Module 4: Database (Practical 3)
Unit code	0612 451 08A
Assessment date	
Venue / Laboratory	
Start time	
Finish time	
Attempt (tick one)	☑ First ☐ Second ☐ Third

Assessor's key: Award the full mark(s) only if the observation is clearly demonstrated. Do not award part marks within a single observation item.

A. Cutting List (Materials and Tools Required)

No.	Item	Specification	Qty per candidate	Provided by	Available (✓)	Assessor remarks
1	Computer	Working, with Microsoft Access installed and a screenshot facility (Snipping Tool or Print Screen)	1	Institute	✓	Provided
2	Flash disk	For saving the database file	1	Candidate	✓	Provided
3	Answer sheet and pen	For SQL commands, screenshots and written answers	1 set	Institute	✓	Provided

B. Process Checklist (50 Marks)

Task 1: Create a New Database (3 marks)

No.	Observation item	Max	Score	Assessor remarks
1.1	Opens Microsoft Access, creates a Blank Database and names it YourName_StudentDB	2	2	Created a blank database
1.2	Saves the database on the flash disk and takes a screenshot showing the database name in the title bar	1	1	saved

Task 2: Create the Table Using the CREATE Command (8 marks)

No.	Observation item	Max	Score	Assessor remarks
2.1	Opens Create → Query Design, closes the Show Table window without adding any table, and switches to SQL View	1	1	Creates query
2.2	Types a correct CREATE TABLE Students command containing all 7 fields (StudentID, FirstName, LastName, Gender, Course, Age, Fees)	2	2	Creates a table using Create command
2.3	Uses correct data types: StudentID and Age as Integer, FirstName, LastName, Gender and Course as Text, Fees as Currency	2	2	
2.4	Uses correct field sizes: FirstName 30, LastName 30, Gender 10, Course 30	1	1	correct fields used
2.5	Sets StudentID as the primary key	1	1	set as PK
2.6	Runs the query, saves it as qryCreateTable, opens the table in Design View and takes a screenshot; assessor has been called to check the structure	1	1	Runs the query and saves it

Formative practical database, checklist 3

Task 3: Insert Data Using a Form (6 marks)

No.	Observation item	Max	Score	Assessor remarks
3.1	Selects the Students table, creates a form using Create → Form and saves it as frmStudents	1	1	Created the form
3.2	Switches to Form View and enters the records using the form only, not directly in the table	1	1	switched to form view
3.3	Enters all five records (101 to 105)	2	1	five records entered
3.4	All field values match the sample data exactly (no spelling or number errors)	1	1	values match the sample
3.5	Opens the Students table, confirms all five records are saved and takes a screenshot	1	1	confirmed

05

Task 4: Add Buttons to the Form (8 marks)

No.	Observation item	Max	Score	Assessor remarks
4.1	Opens frmStudents in Design View with the Command Button Wizard turned on	1	1	opened form
4.2	Adds a **Next** button (Next Record) and a **Previous** button (Previous Record) with the correct captions	2	2	added
4.3	Adds a **New Record** button that adds a new record, with the correct caption	1	1	added to form
4.4	Adds a **Close** button that closes the form, with the correct caption	1	1	added button
4.5	Arranges the four buttons neatly in one row and makes them the same size	1	1	arranged well
4.6	Switches to Form View and tests each button; all four work correctly when observed by the assessor	1	1	switched to form view
4.7	Takes a screenshot of the form showing all four buttons	1	1	screenshot taken

08

13

Task 5: Change the Colours of the Form (6 marks)

No.	Observation item	Max	Score	Assessor remarks
5.1	Opens frmStudents in Design View and changes the form background to a light colour	1	0	background changed
5.2	Changes the field label colour to a dark colour that is easy to read	1	00	Not changed
5.3	Changes the button background colours so that the Close button is a different colour from the other three	2	0	Changed
5.4	Changes the button caption font colour so that the text is clearly visible	1	00	
5.5	Switches to Form View, saves the form and takes a screenshot of the finished form	1	0	

04

Task 6: Insert a Record Using the INSERT Command (4 marks)

No.	Observation item	Max	Score	Assessor remarks
6.1	Types a correct INSERT INTO Students command with the values (106, 'Peter', 'Odhiambo', 'Male', 'ICT', 23, 25000)	2	0	Incorrect command
6.2	Opens a new query in SQL View, runs it, confirms the prompt and saves it as qryInsert	1	1/2	opened wrong sql
6.3	Opens the Students table, confirms the new record appears and takes a screenshot	1	0	No added record

4 1/2

D. Summary of Marks

Section	Max	Score	Assessor remarks
Task 1: Create a new database	3	03	
Task 2: CREATE command	8	08	
Task 3: Insert data using a form	6	05	
Task 4: Add buttons to the form	8	08	
Task 5: Change form colours	6	04	
Task 6: INSERT command	4	1½	
Task 7: SELECT with a condition	7	07	
Task 8: DELETE command	6	06	
Task 9: Documentation and saving	2	02	
Process total	**50**	34	
Product total (separate)	5	05	

E. Decision Outcome

The decision is based on the **process score out of 50**. The product score is recorded separately.

Process score	Percentage	Decision	Assessor remarks
25 to 50 marks	50% and above	**COMPETENT**	
0 to 24 marks	Below 50%	**NOT COMPETENT**	

Process score: 31 / 50 (62 %)
Product score: 5 / 5

Decision (tick one):

☑ COMPETENT

☐ NOT COMPETENT

F. Comments

Assessor's Comments

(Strengths, areas needing improvement, and any irregularities observed during the assessment)

Work on sql statements

Assessor's name: James **Signature:** [signature] **Date:** 29/10/2026

Candidate's Comments

(Candidate's remarks on the assessment and the result)

The assessment was Conducted and the marks awarded fairly

Candidate's name: BRIAN MAINA **Signature:** [signature] **Date:** 29/10/2

THE END.
