Formative practical database, checklist 3

Observation Checklist

60/60

Institution: Aberdare Technical College
Information Communication Technology
Module 4, Practical 3
Unit: Database
Unit code: 0612 451 08A
Time allowed: 3 hours
Marks: Process checklist 50 marks. Product checklist 5 marks.

Assessor and Candidate Details

Assessor Details

Field	Details
Assessor's full name	James Ndirangu
Assessor's ID / Registration No.	
Institution / Assessment centre	Aberdare
Assessor's phone / email	
Assessor's signature	

Candidate Details

Field	Details
Candidate's full name	WAMU MARCUS
Registration / Index No.	818
Course / Level	
Class / Group	
Institution	ATC

Assessment Details

Field	Details
Module / Unit title	Module 4 Database (Practical 1)
Unit code	(0612 431 004
Assessment date	29/10/2024
Venue / Laboratory	Computer lab 210
Start time	10:30am
Finish time	1:30pm
Attempt (tick one)	☑ First ☐ Second ☐ Third

Assessor's key: Award the full mark(s) only if the observation is clearly demonstrated. Do not award part marks within a single observation item.

A. Cutting List (Materials and Tools Required)

No.	Item	Specification	Qty per candidate	Provided by	Available (✓)	Assessor remarks
1	Computer	Working, with Microsoft Access installed and a screenshot facility (Snipping Tool or Print Screen)	1	Institute	✓	Provided
2	Flash disk	For saving the database file	1	Candidate	✓	Provided
3	Answer sheet and pen	For SQL commands, screenshots and written answers	1 set	Institute	✓	Provided

B. Process Checklist (50 Marks)

Task 1: Create a New Database (3 marks)

No.	Observation item	Max	Score	Assessor remarks
1.1	Opens Microsoft Access, creates a Blank Database and names it YourName_StudentDB	2	2	Named it as instructed
1.2	Saves the database on the flash disk and takes a screenshot showing the database name in the title bar	1	1	saved and took screenshot

Task 2: Create the Table Using the CREATE Command (8 marks)

No.	Observation item	Max	Score	Assessor remarks
2.1	Opens Create → Query Design, closes the Show Table window without adding any table, and switches to SQL View	1	1	opened
2.2	Types a correct CREATE TABLE Students command containing all 7 fields (StudentID, FirstName, LastName, Gender, Course, Age, Fees)	2	2	used correct command
2.3	Uses correct data types: StudentID and Age as Integer, FirstName, LastName, Gender and Course as Text, Fees as Currency	2	2	uses correct data types,
2.4	Uses correct field sizes: FirstName 30, LastName 30, Gender 10, Course 30	1	1	correct field sizes used
2.5	Sets StudentID as the primary key	1	1	set as PK
2.6	Runs the query, saves it as qryCreateTable, opens the table in Design View and takes a screenshot; assessor has been called to check the structure	1	1	Runs the query and saves it

8 + 3

11

Task 3: Insert Data Using a Form (6 marks)

No.	Observation item	Max	Score	Assessor remarks
3.1	Selects the Students table, creates a form using Create → Form and saves it as frmStudents	1	1	Created a form
3.2	Switches to Form View and enters the records using the form only, not directly in the table	1	1	Used form to enter record
3.3	Enters all five records (101 to 105)	2	2	all five record entered
3.4	All field values match the sample data exactly (no spelling or number errors)	1	1	Values match the sample
3.5	Opens the Students table, confirms all five records are saved and takes a screenshot	1	1	Opened table to confirm

Task 4: Add Buttons to the Form (8 marks)

No.	Observation item	Max	Score	Assessor remarks
4.1	Opens frmStudents in Design View with the Command Button Wizard turned on	1	1	form opened
4.2	Adds a **Next** button (Next Record) and a **Previous** button (Previous Record) with the correct captions	2	2	Next button added
4.3	Adds a **New Record** button that adds a new record, with the correct caption	1	1	new record button added
4.4	Adds a **Close** button that closes the form, with the correct caption	1	1	added a close button
4.5	Arranges the four buttons neatly in one row and makes them the same size	1	1	button arranged neatly
4.6	Switches to Form View and tests each button; all four work correctly when observed by the assessor	1	1	tested the button
4.7	Takes a screenshot of the form showing all four buttons	1	1	taken

14

Formative practical duration: 2 hrs 30 min

Task 5: Change the Colours of the Form (6 marks)

No.	Observation Item	Mark	Score	Assessor remarks
5.1	Opens frmStudents in Design View and changes the form background to a light colour	1	1	Done
5.2	Changes the field label colour to a dark colour that is easy to read	1	1	Changed
5.3	Changes the button background colours so that the Close button is a different colour from the other three	2	2	Changed
5.4	Changes the button caption font colour so that the text is clearly visible	1	1	Changed
5.5	Switches to Form View, saves the form and takes a screenshot of the finished form	1	0	Done

5

Task 6: Insert a Record Using the INSERT Command (4 marks)

No.	Observation Item	Mark	Score	Assessor remarks
6.1	Types a correct INSERT INTO Students command with the values 'U06', 'Peter', 'Odhiambo', 'Male', 'ICT', 23	2	0	Incorrect command
6.2	Opens a new query in SQL View, runs it, confirms the prompts and saves it as qryAdmission	1	0	Incorrect query
6.3	Opens the Students table, confirms the new record appears and takes a screenshot	1	0	No new record

5 1/2

Task 7: Retrieve Data Using SELECT with a Condition (7 marks)

No.	Observation item	Max	Score	Assessor remarks
7.1	Types a correct first SELECT: all fields (*) where Course is ICT	2		
7.2	Runs it, saves it as qrySelectICT and takes a screenshot of the result	1		
7.3	Types a correct second SELECT: FirstName, LastName and Fees only, where Age is greater than 20	2		
7.4	Runs it, saves it as qrySelectAge and takes a screenshot of the result	1		
7.5	Writes the correct number of records returned by each query (3 and 3); assessor has been called to check the results	1		

Task 8: Delete a Record Using the DELETE Command (6 marks)

No.	Observation item	Max	Score	Assessor remarks
8.1	Types a correct DELETE FROM Students WHERE StudentID = 104 command	2		
8.2	Opens a new query in SQL View, runs it, confirms the deletion when prompted and saves it as qryDelete	1		
8.3	Opens the Students table, confirms record 104 is removed (5 records remain) and takes a screenshot; assessor has been called to check	2		
8.4	Writes the correct reason for the WHERE condition (without it, all records would be deleted)	1		

Task 9: Documentation and Saving (2 marks)

Formative practical database, checklist 1

No.	Observation item	Max	Score	Assessor remarks
9.1	Checks that the database contains the table Students, the form frmStudents and the queries qryCreateTable, qryInsert, qrySelectAll, qrySelectOne and qryUpdate	1	1	Checked
9.2	Saves and closes the database, and submits the answer sheet with screenshots, SQL commands and written answers	1	1	Checked

Process total: 2 / 50

C. Product Checklist (5 Marks, not included in the 50 marks)

No.	Observation item	Max	Score	Assessor remarks
P1	The database is saved as YourName_StudentDB.accdb on the flash disk and opens without errors	1	1	Checked
P2	The Students table has the correct structure and holds the correct final records (101, 102, 103, 105, 106)	2	2	
P3	The form frmStudents is neat, with readable colours, a distinct Close button and all four buttons working	1	1	Checked
P4	The answer sheet is complete, orderly and legible, with screenshots, SQL commands and written answers in task order	1	1	Complete

Product total: 5 / 5

D. Summary of Marks

Section	Max	Score	Assessor remarks
Task 1: Create a new database	3	03	
Task 2: CREATE command	8	08	
Task 3: Insert data using a form	6	06	
Task 4: Add buttons to the form	8	08	
Task 5: Change form colours	6	5	
Task 6: INSERT command	4	1½	
Task 7: SELECT with a condition	7	80	
Task 8: DELETE command	6	00	
Task 9: Documentation and saving	2	02	
Process total	50	33	
Product total (separate)	5	05	

E. Decision Outcome

The decision is based on the **process score out of 50**. The product score is recorded separately

Process score	Percentage	Decision	Assessor remarks
25 to 50 marks	50% and above	**COMPETENT**	
0 to 24 marks	Below 50%	**NOT COMPETENT**	

Process score: 33 **/ 50 (** 66 **%)**
Product score: 05 **/ 5**

Decision (tick one):

☑ COMPETENT

☐ NOT COMPETENT

F. Comments

Assessor's Comments

(Strengths, areas needing improvement, and any irregularities observed during the assessment)

Poolsk all Commands

Assessor's name: James **Signature:** [signature] **Date:** 29/10/2026

Candidate's Comments

(Candidate's remarks on the assessment and the result)

Enjoyed the test.
