

ABERDARE TECHNICAL COLLEGE

INFORMATION COMMUNICATION TECHNOLOGY MODULE 3

UNIT: NETWORK DESIGN AND MANAGEMENT

UNIT CODE: 0612 451 07A

PRACTICAL ASSESSMENT – OBSERVATION CHECKLIST

Time 4 hours

A. CANDIDATE AND ASSESSOR DETAILS

Particular	Details
Candidate Name	
Candidate Registration No.	
Assessment Date	
Start Time	
Assessor Name	
Assessment Venue	

B. ASSESSMENT INFORMATION

Assessment Decision

The candidate shall demonstrate the ability to plan, install, configure, test and troubleshoot a small wired computer network using the equipment provided.

The assessor shall observe the candidate performing the practical activities and award marks based on demonstrated competence.

C. MATERIALS, TOOLS AND EQUIPMENT / CUTTING LIST

No.	Item / Material / Equipment	Quantity	Provided By
1	Desktop computers	3	Centre
2	USB printer with USB cable	1	Centre
3	8-port or 24-port switch	1	Centre
4	Router / wireless router with internet access	1	Centre
5	Cat5e/Cat6 UTP straight-through patch cables	5	Centre
6	RJ45 connectors	As required	Centre
7	Crimping tool	1	Centre
8	Cable stripper	1	Centre
9	Cable tester	1	Centre
10	Diagram sheets	As required	Centre
11	Network labels	As required	Centre
12	Pen/pencil/ruler	As required	Candidate

D. PRACTICAL OBSERVATION CHECKLIST – 50 MARKS

Instructions to Assessor:

Observe the candidate while performing each task. Award marks only for work demonstrated by the candidate. Use the comments column to record evidence, errors, corrections or observations.

No.	Item to be evaluated	Allocated Marks	Candidate Score	Assessor Comments
TASK A – PHYSICAL NETWORK DIAGRAM				
1	Draws a neat physical network diagram showing HR-PC, ACC-PC, REC-PC, switch, router, USB printer and ISP/Internet cloud.	2		
2	Correctly connects the three computers to the	2		

	central switch and connects the switch to the router.			
3	Shows the USB connection between the printer and REC-PC and identifies REC-PC as the print host.	2		
TASK A SUBTOTAL		6		
TASK B – LOGICAL TOPOLOGY DESIGN				
4	Draws the logical topology showing IP addresses, subnet mask, default gateway and internet path.	2		
5	Correctly shows how HR-PC and ACC-PC access the shared printer through REC-PC.	1		
6	Identifies the physical topology as star and the logical topology appropriately.	1		
7	Gives valid reasons for selecting the topology, such as easy fault isolation, expansion and centralised management.	1		
TASK B SUBTOTAL		5		
TASK C – ADDRESSING PLAN				
8	Identifies the network as 192.168.10.0/24 and gives the correct subnet mask.	1		
9	Assigns 192.168.10.1 as the router LAN address and uses a static address.	1		
10	Assigns unique IP addresses to HR-PC, ACC-PC and REC-PC within the correct subnet.	3		

11	Assigns the correct default gateway to the computers.	2		
12	Includes the switch management address where applicable and provides a documented growth/reserved address range.	1		
TASK C SUBTOTAL		8		
TASK D – INSTALLATION AND CONFIGURATION				
13	Connects the network devices correctly using Cat5e/Cat6 straight-through cables and labels cables/ports.	2		
14	Correctly demonstrates preparation/testing of a straight-through cable where required and obtains a successful tester result.	1		
15	Configures the router LAN IP, hostname and management password correctly.	2		
16	Configures the required DHCP/NAT/internet-sharing settings where applicable.	1		
17	Renames the computers as HR-PC, ACC-PC and REC-PC and places them in the BRIGHTPATH workgroup.	3		
18	Correctly configures the IP address, subnet mask and default gateway on the computers.	1		
19	Connects the USB printer to REC-PC, installs the driver and enables printer sharing.	1		

20	Adds the shared printer to HR-PC and ACC-PC and demonstrates successful printing.	1		
21	Creates and shares CompanyShare so that all three computers can access it.	1		
22	Creates FinanceHR and configures access so that HR and Accounts can access it while Reception is denied.	1		
TASK D SUBTOTAL		14		
TASK E – TESTING AND VERIFICATION				
23	Tests connectivity between HR-PC and ACC-PC using ping and obtains successful replies.	1		
24	Tests connectivity between ACC-PC and REC-PC using ping and obtains successful replies.	1		
25	Tests connectivity between REC-PC and HR-PC using ping and obtains successful replies.	1		
26	Tests connectivity from each computer to the default gateway.	1		
27	Verifies that the shared printer is visible from HR-PC and ACC-PC.	1		
28	Verifies internet/ISP connectivity from all three computers.	2		
29	Performs a tracert test and correctly identifies the first hop as the default gateway.	1		

30	Prints a test page from the required computers and records the result.	1		
31	Tests access to CompanyShare from all three computers.	1		
32	Demonstrates that Reception is denied access to FinanceHR and records the result.	1		
TASK E SUBTOTAL		11		
TASK F – TROUBLESHOOTING				
33	Identifies the network symptom and follows a systematic troubleshooting procedure.	2		
34	Uses appropriate diagnostic tools/commands such as ipconfig, ping, tracert and physical inspection.	1		
35	Correctly identifies the cause of the introduced fault.	1		
36	Corrects the fault without causing unnecessary changes to the network.	1		
37	Re-tests the affected connection/service and confirms that the network is working.	1		
TASK F SUBTOTAL		6		
TOTAL PRACTICAL OBSERVATION MARKS		50		

E. PRODUCT CHECKLIST – 10 MARKS

Instructions to Assessor:

Inspect the completed network installation and other products produced by the candidate. Award marks according to the quality and functionality of the final products.

No.	Product / Expected Outcome	Allocated Marks	Candidate Score	Assessor Comments
1	Neat and correctly labelled physical network diagram showing all required devices, connections, ports and cable types.	2		
2	Complete and accurate addressing table using the 192.168.10.0/24 network, including gateway and reserved growth range.	2		
3	Functional wired star network with correct device connections and working network links.	1		
4	Functional shared USB printer accessible to the required computers through REC-PC.	1		
5	Functional CompanyShare folder accessible by all three computers.	1		
6	Functional FinanceHR folder with access restricted to HR and Accounts and Reception denied.	1		
7	Completed network test log with accurate Pass/Fail results and supporting test evidence.	1		
8	Neat cable/port labelling and organised network installation.	1		
TOTAL PRODUCT MARKS		10

MARK SUMMARY

Assessment Component	Maximum Marks	Candidate Score
Practical Observation Checklist	50	
Product Checklist	10	
TOTAL	60	

Percentage: _____ %

L. COMPETENCE / DECISION OUTCOME

Decision	Tick
Competent	☐
Not Yet Competent	☐
Re-assessment Required	☐

Particular	Name / Signature	Date
Candidate Name	_____	_____
Candidate Signature	_____	_____
Assessor Name	_____	_____
Assessor Signature	_____	_____
Internal Verifier / Moderator	_____	_____

ASSESSOR DECLARATION

I confirm that I have observed the candidate performing the practical activities and that the marks awarded are based on the candidate's demonstrated performance and the products presented during the assessment.
