

THE ABERDARE TECHNICAL COLLEGE

LEARNING PLAN – COMPUTER OPERATIONS

1. INSTITUTIONAL DETAILS

Item	Details
Module	Module 1
Unit of Competence	Computer Operations
Unit Code	0611 351 02A
Trainer	JAMES NDIRANGU
Competence Level	Level 5
Institution	THE ABERDARE TECHNICAL COLLEGE
Number of Learners	1
Date of Preparation	04/09/2026
Duration	12 Weeks
Training Approach	Demonstration, guided practice, discussion, individual practical exercises and assessment

SKILL OR JOB TASK

Perform computer operations by processing word documents, manipulating spreadsheets, maintaining computerized databases, preparing presentations, manipulating graphic applications, performing document production, and participating in online and mobile collaboration.

2. BENCHMARK OR CRITERIA TO BE USED

1. Process computerized word document

- 1.1 Ergonomics risk factors observed as per work place procedures*
- 1.2 Word document is created as per work requirements*
- 1.3 Tables are created and manipulated as per work requirements*
- 1.4 Mail merging is performed as per work requirements*
- 1.5 Word processing Objects are inserted as per user requirements*
- 1.6 List of figures and table of content are generated as per user requirements*
- 1.7 Computerized Word documents are printed as per workplace procedure.*

2. Manipulate computerized spreadsheets

- 2.1 Spreadsheet workbook is created as per work requirements*
- 2.2 Cell referencing is performed as per task requirements*
- 2.3 Formula and functions are applied as per work requirements*
- 2.4 Charts are generated as per work requirements*

3. Maintain computerized database

3.1 Computerized database user requirements are collected as per work requirements.

3.2 Computerized database schemas are designed as per task requirements.

3.3 Creation of Computerized database objects as per task requirements.

3.4 Data manipulation is performed as per task requirements.

4. Prepare Power point presentation

4.1 PowerPoint Presentation requirements are collected as per work requirements

4.2 PowerPoint slides are created as per work requirement

4.3 Presentation views are exhibited as per work requirements.

4.4 Animations and transitions are performed as per work requirements

4.5 PowerPoint slides are manipulated as per work requirements

4.6 PowerPoint slides are printed as per work requirements

5. Manipulate graphic application

5.1 Identifying graphic design requirements

5.2 Graphic design created as per task requirements

5.3 Graphic design published as per the task requirements

6. Perform document production

6.1 Document is printed as per user specifications

6.2 Documents are scanned as per user specifications

6.3 Documents are duplicated as per user specifications

7. Perform Online Collaboration

7.1 Identification of Online collaboration tools as per the task requirements

7.2 Prepare online collaboration as per the task requirements.

7.3 Apply online collaborative tools as per the task requirements.

7.4 Demonstrating Mobile collaborations as per task requirements

3. LEARNING PLAN

MAIN LEARNING OUTCOME 1: PROCESS COMPUTERIZED WORD DOCUMENT

WEEK 1 – SESSIONS 1 AND 2

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
1	Process computerized word document	Session 1: Ergonomics and Introduction to Word Processing	By the end of this session the trainee	1. Trainer explains common ergonomics risk factors and demonstrates	1. Trainee identifies ergonomics risk factors and observes the correct workstation arrangement. 2.	Computer,	Oral questions	_____

			common word processors . 4. Differentiate between major types of word processors .	trainee to distinguish between different word processors.		workstation		
1	Processes computerized word document	Session 2: Creating, Editing and Formatting Word Documents	1. Create a new word document. 2. Apply text editing	1. Trainer demonstrates how to create and save a word document. 2. Trainer	1. Trainee creates and saves a new word document. 2. Trainee applies text editing operations. 3. Trainee applies	Computer, word processor, sample documents	Practical exercise and observation	_____

		Subtopics: 1.2.3 Creating word document; 1.2.4 Editing and formatting word document; 1.2.5 Text editing; 1.2.5.1 Text editing; 1.2.5.2 Paragraph editing; 1.2.5.3	features. 3. Apply paragraph editing features. 4. Edit a complete word document.	demonstrates text editing operations. 3. Trainer demonstrates paragraph editing operations. 4. Trainer provides a document-editing task and guides the trainee.	paragraph editing operations. 4. Trainee edits the provided document according to instructions.			
--	--	--	--	---	---	--	--	--

		Document editing						
--	--	------------------	--	--	--	--	--	--

WEEK 2 – SESSIONS 3 AND 4

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
2	Process computerized word document	Session 3: Word Document Formatting Subtopics: 1.2.6 Word document formatting features; 1.2.6.1	By the end of this session the trainee should be able to;	1. Trainer demonstrates common formatting features. 2. Trainer demonstrates	1. Trainee identifies the demonstrated formatting features. 2. Trainee applies the	Computer,	Practical formatting task	_____

		Text formatting; 1.2.6.2 Paragraph formatting; 1.2.6.3 Document formatting	1. Identify word formatting features. 2. Apply text formatting. 3. Apply paragraph formatting. 4. Format an entire document according to given specifications.	font type, size, style and effects. 3. Trainer demonstrates paragraph alignment, indentation and spacing. 4. Trainer provides formatting specifications for a document.	specified text formatting. 3. Trainee applies the specified paragraph formatting. 4. Trainee formats the document according to the given specifications.	word processor, projector, sample document		
2	Process computerized word document	Session 4: Enhancing Word-Processing	1. Identify basic word-processing preferences.	1. Trainer demonstrates basic application	1. Trainee identifies the available preferences.	Computer, word processor, projector,	Practical observation and oral questions	_____

WEEK 3 – SESSIONS 5 AND 6

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
3	Process computerized word document	Session 5: Creation and Manipulation of Tables Subtopics: 1.3 Creation and manipulation of tables; 1.3.1 Inserting tables; 1.3.2 Working with tables	1. Identify the uses of tables in word documents. 2. Create tables using appropriate methods. 3. Manipulate rows and columns. 4. Format tables according to document requirements.	1. Trainer explains applications of tables in documents. 2. Trainer demonstrates how to insert tables. 3. Trainer demonstrates manipulation of rows,	1. Trainee identifies appropriate uses of tables. 2. Trainee inserts tables using the demonstrated methods. 3. Trainee manipulates rows, columns and	Computer, word processor, sample data	Practical table creation task	

				columns and cells. 4. Trainer demonstrates table formatting and gives a practical task.	cells. 4. Trainee formats tables and completes the practical task.			
3	Process computerized word document	Session 6: Mail Merge Subtopics: 1.4 Mail merge; 1.4.1 Mail merge preparation; 1.4.1 Mail merge output	1. Explain the purpose of mail merge. 2. Prepare a mail merge document and data source. 3. Apply mail merge fields. 4. Generate mail merge output.	1. Trainer explains the purpose and components of mail merge. 2. Trainer demonstrates preparation of the main document and	1. Trainee explains the purpose of mail merge. 2. Trainee prepares the main document and data source. 3. Trainee inserts the	Computer, word processor, sample recipient data	Individual mail merge practical	_____

				data source. 3. Trainer demonstrates insertion of merge fields. 4. Trainer demonstrates previewing and generating the final output.	appropriate merge fields. 4. Trainee previews and generates the mail merge output.			
--	--	--	--	---	--	--	--	--

WEEK 4 – SESSIONS 7 AND 8

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
4	Process computerized word document	Session 7: Word Processing Objects and Automatic Lists Subtopics: 1.5 Pictures; 1.5.2 Shapes; 1.5.3 Tables; 1.5.4 Charts; 1.6 List of figures; 1.6.2	By the end of this session the trainee should be able to; 1. Insert pictures, shapes, tables and	1. Trainer demonstrates insertion of pictures, shapes, tables and charts. 2. Trainer demonstrates object resizing, positioning and editing.	1. Trainee inserts pictures, shapes, tables and charts. 2. Trainee resizes, positions and edits the objects. 3. Trainee applies captions and	Computer, word processor, sample document, images	Practical document production task	

		Table of contents	charts. 2. Edit inserted objects. 3. Generate a list of figures. 4. Generate a table of contents.	3. Trainer demonstrates use of captions and generation of a list of figures. 4. Trainer demonstrates heading styles and automatic table of contents generation.	generates a list of figures. 4. Trainee applies heading styles and generates a table of contents.			
4	Process computerized word document	Session 8: Printing Word Documents	1. Identify important print	1. Trainer explains important print	1. Trainee identifies important print settings.	Computer, printer, word	Practical assessment / CAT 1	_____

		Subtopics: 1.7 Printing computerized word document; 1.7.1 Print setup; 1.7.2 Printing	settings. 2. Configure page and printer settings. 3. Preview a document before printing. 4. Print a correctly formatted document.	settings. 2. Trainer demonstrates page setup and printer selection. 3. Trainer demonstrates print preview. 4. Trainer demonstrates printing and provides an individual printing task.	2. Trainee configures the required settings. 3. Trainee previews the document before printing. 4. Trainee prints the document according to the specifications.	processor, paper		
--	--	--	---	--	--	------------------	--	--

MAIN LEARNING OUTCOME 2: MANIPULATE COMPUTERIZED SPREADSHEET

WEEK 5 – SESSIONS 9 AND 10

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
5	Manipulate computerized spreadsheet	Session 9: Spreadsheet Concepts and Workbook Creation Subtopics: 2.1.1 Spreadsheet concepts; 2.1.2 Elements of spreadsheet window;	By the end of this session the trainee should be able to; 1. Define spreadsheet concepts. 2. Identify	1. Trainer explains spreadsheet concepts. 2. Trainer demonstrates the spreadsheet window and its elements. 3. Trainer	1. Trainee defines the spreadsheet concepts. 2. Trainee identifies elements of the spreadsheet window. 3. Trainee	Computer, MS Excel/LibreOffice Calc, projector	Oral questions and practical task	

		worksheet; workbook; rows; columns; cells	elements of a spreadsheet window. 3. Differentiate between a worksheet and workbook. 4. Create a spreadsheet workbook.	asks the trainee to distinguish between worksheets and workbooks. 4. Trainer demonstrates creation and saving of a workbook.	differentiates between worksheets and workbooks. 4. Trainee creates and saves a workbook.			
5	Manipulate computerized spreadsheet	Session 10: Cell Referencing and Worksheet Editing Subtopics: 2.2.1 Relative, absolute and mixed	1. Explain cell referencing. 2. Differentiate relative, absolute and	1. Trainer explains cell referencing. 2. Trainer demonstrates the three types of cell	1. Trainee explains cell referencing. 2. Trainee differentiates relative, absolute and	Computer, spreadsheet application , sample workbook	Practical exercise	_____

		referencing; 2.2.2 Worksheet editing; inserting/removing rows and columns; row height and column width; inserting, renaming, moving, copying and deleting worksheets	mixed references. 3. Apply cell references in formulas. 4. Manipulate worksheets by inserting, renaming, moving, copying and deleting them.	references. 3. Trainer demonstrates use of references in formulas. 4. Trainer demonstrates worksheet editing operations.	mixed references. 3. Trainee applies the different references in formulas. 4. Trainee performs the demonstrated worksheet editing operations.			
--	--	---	---	--	---	--	--	--

WEEK 6 – SESSIONS 11 AND 12

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
6	Manipulate computerized spreadsheet	Session 11: Data Entry and Manipulation Subtopics: 2.2.3.1 Data entry; 2.2.3.2 Types of data	By the end of this session the trainee should be able to; 1. Identify common spreadsheet data types. 2. Enter data accurately.	1. Trainer explains common spreadsheet data types. 2. Trainer demonstrates accurate data entry. 3. Trainer demonstrates how different	1. Trainee identifies common spreadsheet data types. 2. Trainee enters data accurately. 3. Trainee differentiates the various data types. 4. Trainee	Computer, spreadsheet application,	Practical data entry exercise	_____

			3. Differentiate text, numeric, date and other data types. 4. Manipulate spreadsheet data according to requirements.	data types behave in cells. 4. Trainer provides data manipulation exercises.	manipulates the spreadsheet data according to the exercise.	sample datasets		
6	Manipulate computerized spreadsheet	Session 12: Formulas and Functions Subtopics: 2.3.1.1 Formula and function syntax;	1. Explain formula and function syntax. 2. Construct spreadsheet	1. Trainer explains formula and function syntax. 2.	1. Trainee explains formula and function syntax. 2. Trainee	Computer, spreadsheet software, sample data	Practical formula/function exercise	_____

		2.3.1.2 Arithmetic functions; 2.3.1.3 Logical functions; 2.3.1.4 Lookup functions	formulas. 3. Apply arithmetic and logical functions. 4. Apply lookup functions to retrieve data.	Trainer demonstrates construction of formulas. 3. Trainer demonstrates arithmetic and logical functions. 4. Trainer demonstrates lookup functions using sample data.	constructs formulas. 3. Trainee applies arithmetic and logical functions. 4. Trainee applies lookup functions to retrieve information.			
--	--	---	--	--	--	--	--	--

WEEK 7 – SESSIONS 13 AND 14

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
7	Manipulate computerized spreadsheet	Session 13: Spreadsheet Formatting Subtopics: 2.3.2.1 Font styles; 2.3.2.2 Alignment;	By the end of this session the trainee should be able to;	1. Trainer identifies and demonstrates formatting features. 2. Trainer demonstrates	1. Trainee identifies the formatting features. 2. Trainee applies font and alignment	Computer, spreadsheet software, sample workbook	Practical formatting exercise	

		2.3.2.3 Borders and shading; 2.3.2.4 Header and footer	1. Identify spreadsheet formatting features. 2. Apply font styles and alignment. 3. Apply borders and shading. 4. Insert headers and footers.	font and alignment formatting. 3. Trainer demonstrates borders and shading. 4. Trainer demonstrates insertion of headers and footers.	formatting. 3. Trainee applies borders and shading. 4. Trainee inserts appropriate headers and footers.			
7	Manipulate computerized spreadsheet	Session 14: Chart Generation Subtopics: 2.4.1.1 Types of	1. Identify common chart types. 2. Select appropriate charts for	1. Trainer explains common chart types. 2. Trainer provides	1. Trainee identifies common chart types. 2. Trainee selects	Computer, spreadsheet application, datasets, projector	Chart-generation practical	_____

		charts; 2.4.1.2 Insert charts; 2.4.1.3 Labelling and editing charts	given data. 3. Create charts from spreadsheet data. 4. Edit and label charts appropriately.	datasets and asks the trainee to select appropriate charts. 3. Trainer demonstrates chart insertion. 4. Trainer demonstrates chart labelling and editing.	appropriate charts for the given datasets. 3. Trainee creates charts from the data. 4. Trainee labels and edits the charts appropriately.			
--	--	---	---	---	--	--	--	--

WEEK 8 – SESSIONS 15 AND 16

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
8	Manipulate computerized spreadsheet	Session 15: Spreadsheet Printing Subtopics: 2.4.1.4 Workbook	By the end of this session the trainee should be able to;	1. Trainer explains spreadsheet print options. 2. Trainer	1. Trainee identifies spreadsheet printing options. 2. Trainee	Computer, spreadsheet software, printer, paper	Practical printing task	_____

		printing; 2.4.1.5 Print setup; 2.4.1.6 Printing	1. Identify spreadsheet printing options. 2. Configure print settings. 3. Preview worksheets before printing. 4. Print a spreadsheet workbook.	demonstrates print setup. 3. Trainer demonstrates print preview and page arrangement. 4. Trainer demonstrates printing a workbook.	configures print settings. 3. Trainee previews the worksheet. 4. Trainee prints the workbook according to specifications.			
8	Manipulate computerized	Session 16: Integrated Spreadsheet Practical	1. Apply spreadsheet creation skills. 2.	1. Trainer provides an integrated spreadsheet	1. Trainee applies spreadsheet creation	Computer, spreadsheet software,	CAT 2 / Practical assessment	_____

	spreadsheet	Subtopics: Workbook creation, cell referencing, data entry, formulas/functions, formatting, charts and printing	Analyse a given dataset. 3. Construct formulas and functions. 4. Create a formatted workbook and chart. 5. Evaluate the final workbook against given requirements.	task. 2. Trainer asks the trainee to analyse the given requirements and datasets. 3. Trainee constructs the required formulas and functions. 4. Trainer guides the trainee in developing formulas and functions. 4. Trainer observes workbook	skills to the task. 2. Trainee analyses the requirements and dataset. 3. Trainee constructs the required formulas and functions. 4. Trainee creates and formats the workbook and chart. 5. Trainee evaluates the completed	printer, practical task sheet		
--	-------------	---	--	---	--	-------------------------------	--	--

				and chart creation. 5. Trainer guides the trainee in checking the completed workbook.	workbook against the requirements .			
--	--	--	--	---	-------------------------------------	--	--	--

MAIN LEARNING OUTCOME 3: MAINTAIN COMPUTERIZED DATABASE

WEEK 9 – SESSIONS 17 AND 18

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
------	-----------------------	---------------------------	------------------	--------------------	--------------------	-----------	------------	-----------------------

9	Maintain computer ized database	Session 17: Database Concepts and User Requirements Subtopics: 3.1.1 Introduction to database; key concepts; database organization; database relationships ; database operations; 3.1.2	By the end of this session the trainee should be able to; 1. Define database concepts. 2. Explain database organization and relationship s. 3. Describe common database	1. Trainer introduces database concepts. 2. Trainer explains database organization and relationship s. 3. Trainer demonstrate s common database operations. 4. Trainer provides a scenario and guides	1. Trainee defines database concepts. 2. Trainee explains database organization and relationship s. 3. Trainee describes common database operations. 4. Trainee collects user	Computer, MS Access/LibreOffice Base, sample databases, projector	Oral questions and requirements collection exercise	
---	---------------------------------	---	--	---	---	---	---	--

		Collection of user requirements	operations. 4. Collect database user requirements.	the trainee in collecting requirements.	requirements from the given scenario.			
9	Maintain computerized database	Session 18: Database Schema Design Subtopics: 3.2 Design computerized database schema; 3.2.1 Creating database models;	1. Explain database schema. 2. Identify entities, attributes and relationships. 3. Create an ERD model. 4. Convert an ERD into a	1. Trainer explains database schema design. 2. Trainer demonstrates identification of entities, attributes and	1. Trainee explains database schema design. 2. Trainee identifies entities, attributes and relationships. 3. Trainee	Computer, database software, draw.io/ERD tool, projector	ERD and relational model practical	

		3.2.1.1 ERD models; 3.2.1.2 Relational models	basic relational model.	relationship s. 3. Trainer demonstrate s creation of an ERD. 4. Trainer demonstrate s conversion of the ERD into a relational model.	creates an ERD from the given requirement s. 4. Trainee converts the ERD into a relational model.			
--	--	--	-------------------------	---	---	--	--	--

WEEK 10 – SESSIONS 19 AND 20

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
10	Maintain computer ized database	Session 19: Database Objects Creation	By the end of this session the trainee	1. Trainer identifies and explains database	1. Trainee identifies major database	Computer , database software,	Practical database creation	_____

		Subtopics: 3.3.1 Tables; records; fields; keys; forms; queries; reports	should be able to; 1. Identify major database objects. 2. Differentiate tables, records, fields and keys. 3. Create tables and define fields and keys. 4. Create forms,	objects. 2. Trainer demonstrate s the difference between tables, records, fields and keys. 3. Trainer demonstrate s creation of tables, fields and keys. 4. Trainer demonstrate s creation of forms,	objects. 2. Trainee differentiate s tables, records, fields and keys. 3. Trainee creates tables and defines fields and keys. 4. Trainee creates forms, queries and reports.	sample data		
--	--	--	---	--	---	-------------	--	--

			queries and reports.	queries and reports.				
10	Maintain computer ized database	Session 20: Database Data Manipulation and Printing Subtopics: 3.4.1 Inserting records; 3.4.2 Retrieving records; 3.4.3 Deleting records; 3.4.4 Updating records; 3.4.5 Printing	1. Enter database records. 2. Retrieve required records. 3. Update and delete records appropriately. 4. Print tables, forms, queries and reports.	1. Trainer demonstrate s record entry. 2. Trainer demonstrate s record retrieval using appropriate methods. 3. Trainer demonstrate s updating and deleting records. 4. Trainer	1. Trainee enters records into the database. 2. Trainee retrieves the required records. 3. Trainee updates and deletes records according to instructions. 4. Trainee prints the	Computer , database software, printer, sample database	Practical database manipulation	

		tables, forms, queries and reports		demonstrate s printing database objects.	required tables, forms, queries and reports.			
--	--	--	--	---	--	--	--	--

MAIN LEARNING OUTCOME 4: PREPARE POWERPOINT PRESENTATION

WEEK 11 – SESSIONS 21 AND 22

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
------	-----------------------	---------------------------	------------------	--------------------	--------------------	-----------	------------	-----------------------

11	Prepare Power Point presentation	Session 21: PowerPoint Requirements, Slides and Presentation Views Subtopics: 4.1.1 Definition of terms; 4.1.2 Presentation requirements; 4.1.3 Types of presentation software; 4.1.4 Elements of presentation window; 4.2.1 Types of	By the end of this session the trainee should be able to; 1. Define common presentation terms. 2. Identify presentation requirements and types of software. 3. Select appropriate	1. Trainer defines common presentation terms. 2. Trainer identifies presentation requirements and types of software. 3. Trainer demonstrates selection of appropriate slide layouts. 4.	1. Trainee defines common presentation terms. 2. Trainee identifies presentation requirements and software. 3. Trainee selects appropriate slide layouts. 4. Trainee designs,	Computer, MS PowerPoint/Impr ess, projector	Practical PowerPoint task	_____
----	----------------------------------	---	--	---	---	---	---------------------------	-------

		presentation layout; 4.2.2 Factors to consider when designing presentation layout; 4.2.3 Design a PowerPoint presentation; 4.2.4 Create a PowerPoint presentation; 4.2.5 Save a PowerPoint presentation; 4.3 Exhibition of presentation views; slide	slide layouts. 4. Design and create a PowerPoint presentation. 5. Demonstrate different presentation views.	Trainer demonstrates designing, creating and saving a presentation. 5. Trainer demonstrates different slide views and switching between presentation views.	creates and saves a presentation. 5. Trainee demonstrates different slide views and switches between open presentations.			
--	--	---	--	--	---	--	--	--

		views; working with presentations; switching between open presentations						
11	Prepare Power Point presentation	Session 22: Animation, Transitions and Slide Manipulation Subtopics: 4.4.1 Slide animation; 4.4.2 Slide transition; 4.5.1 Adding data/text; 4.5.2 Formatting	1. Apply animation and transition effects. 2. Add and format text and data. 3. Manipulate slides by moving, copying and	1. Trainer demonstrates slide animation and transitions. 2. Trainer demonstrates adding and formatting text and data. 3.	1. Trainee applies appropriate animation and transition effects. 2. Trainee adds and formats text and data. 3. Trainee	Computer, PowerPoint, projector, sample presentation	Practical observation	

		data/text; 4.5.3 Move/copy/delete slide; 4.5.4 Header and footer; 4.5.5 Tables and charts	deleting them. 4. Insert headers, footers, tables and charts.	Trainer demonstrates moving, copying and deleting slides. 4. Trainer demonstrates insertion of headers, footers, tables and charts.	moves, copies and deletes slides. 4. Trainee inserts headers, footers, tables and charts.			
--	--	--	---	--	--	--	--	--

MAIN LEARNING OUTCOME 5: MANIPULATE GRAPHIC APPLICATION

WEEK 12 – SESSIONS 23 AND 24

Week	Main Learning Outcome	Session Title / Subtopics	Learning Outcome	Trainer Activities	Trainee Activities	Resources	Assessment	Reflections and Dates
12	Manipulate graphic application	Session 23: Graphic Design Requirements and Publication Creation Subtopics: 5.1.1 Definition of terms; 5.1.2 Graphic application requirements	By the end of this session the trainee should be able to; 1. Define common graphic design terms. 2. Identify graphic	1. Trainer explains common graphic design terms. 2. Trainer identifies graphic application requirements and software. 3. Trainer displays and explains	1. Trainee defines common graphic design terms. 2. Trainee identifies graphic application requirements and software. 3. Trainee differentiates the	Computer, graphic application software, projector, sample publications	Practical graphic design task	

		; 5.1.3 Types of graphic application software; 5.1.4 Publication designs – templates, banners, booklets, brochures, flyers, posters, cards, certificates and magazines; 5.1.5 Elements of	application requirements and software. 3. Differentiate common publication types. 4. Select an appropriate publication type. 5. Create a publication using appropriate page settings.	different publication designs. 4. Trainer guides the trainee in selecting an appropriate publication type. 5. Trainer demonstrates page setup, rulers, guides and page views.	publication types. 4. Trainee selects an appropriate publication type. 5. Trainee creates a publication using appropriate page settings, rulers, guides and views.			
--	--	---	--	---	--	--	--	--

		graphic application window; 5.2.1 Publication type, page setup, ruler/guides and page views						
12	Manipulate graphic application	Session 24: Publication Content, Formatting, Graphics and Printing Subtopics: 5.2.2 Add content; 5.2.3	1. Add, edit and format content in a publication. 2. Apply page formatting features. 3. Manipulate	1. Trainer demonstrates adding, editing and formatting publication content. 2. Trainer demonstrates	1. Trainee adds, edits and formats publication content. 2. Trainee applies the demonstrated page	Computers, graphic software, printer, scanner, internet, Microsoft Teams/Skype/Google Drive/Zoom/Google Meet/Slack,	Integrated practical assessment / CAT 3	

		Edit content; 5.2.4 Format text and paragraphs; 5.2.5 Columns, borders/shading, headers/footers, background, watermarks, orientation; 5.2.6 Textboxes, tables, shapes, pictures; PNG, JPEG,	textboxes, tables, shapes and pictures. 4. Prepare and print a publication. 5. Identify document production and online collaboration tools. 6. Demonstrate basic online collaboration and mobile	columns, borders, headers, footers, backgrounds, watermarks and orientation. 3. Trainer demonstrates insertion and manipulation of textboxes, tables, shapes and pictures. 4. Trainer demonstrates publication	formatting features. 3. Trainee inserts and manipulates textboxes, tables, shapes and pictures. 4. Trainee prepares and prints the publication. 5. Trainee identifies document production and online collaboration	email, mobile device		
--	--	--	---	--	--	----------------------	--	--

		GIF; 5.3.1 Prepare publication; 5.3.2 Print setup; 5.3.3 Printing publication; 6.1–6.3 Document production; 7.1–7.4 Online collaboration	synchronizat ion skills.	preparation and printing. 5. Trainer introduces document production and online collaboration tools. 6. Trainer demonstrates basic online collaboration , mobile applications, permissions and synchronizati on.	tools. 6. Trainee demonstrates basic online collaboration and mobile synchronizati on.			
--	--	---	-----------------------------	---	---	--	--	--
