Web browser (Chrome, Edge or Firefox)	Latest	Cloud sharing in Task 9
OneDrive or Google Drive account (test account)	Active	Task 9 (cloud option)
Email client or webmail (Outlook, Gmail)	Active	Task 9 (email option)
BitLocker or VeraCrypt (optional)	Built-in or latest	Task 11 (optional method)

INSTRUCTIONS TO THE CANDIDATE

- ✓ *Attempt ALL tasks.*
- ✓ *Work on the computer provided, using Windows File Explorer.*
- ✓ *Where a screenshot is required, paste it into a Word document named Evidence_[YourName] and save it inside your main folder.*
- ✓ *Raise your hand to have the assessor verify tasks marked **(Assessor check)**.*
- ✓ *Do not share passwords or evidence with other candidates.*

SECTION A: Introduction to Files and Folders

Task 1

Open File Explorer and navigate to the Documents location. Using the *Details* view, identify any **one** file and record in your Word evidence document:

- (a) The file name and file extension
- (b) The file type, size and date modified

Task 2

Change the view to *Large icons*, then sort the files by *Date modified*. Take a screenshot showing both settings applied.

SECTION B: Creating Files and Folders .

Task 3

On the Desktop, create a main folder named PRACTICAL_[YourName]. Inside it, create the following subfolders:

- Reports
- Images

- Backup

Task 4

Create the following files and save each in the folder indicated:

File name	Type	Save in	Content
Notes.txt	Text document (Notepad)	Reports	Type your full name, class and today's date
Budget.xlsx	Spreadsheet (Excel)	Reports	Any five items with their prices
Letter.docx	Word document (Word)	Reports	A three-line letter to a friend
Photo1.png	Image (Paint)	Images	Any simple drawing

Task 5

- (a) Rename Notes.txt to Class_Notes.txt.
- (b) Copy Letter.docx into the Backup folder.
- (c) Delete Photo1.png and then restore it from the Recycle Bin.

(Assessor check)

SECTION C: Compression and Extraction.

Task 6 (3 marks)

- (a) Compress the Reports folder into a ZIP file named Reports_Compressed.zip.
- (b) Move the ZIP file into the Backup folder.

Task 7

- (a) Extract Reports_Compressed.zip into a new folder named Extracted inside the main folder.
- (b) Compare the size of the Reports folder with the ZIP file and record both sizes in your evidence document.

SECTION D: Transferring and Sharing Files

Task 8

Transfer Letter.docx to a flash disk **or** to a second folder on another drive. Take a screenshot showing the file in its destination.

Task 9

Share the Backup folder using **one** of the following methods:

- Network sharing (Properties → Sharing → Share), giving *Read* permission to *Everyone*; **or**
- Cloud sharing (OneDrive/Google Drive) with a "view only" link; **or**
- Attaching the ZIP file to an email draft.

Take a screenshot showing the sharing settings or the attached file.

SECTION E: File Protection

Task 10: Password protection

- (a) Open Letter.docx and set a password to open the file (File → Info → Protect Document → Encrypt with Password). Use the password Test@2025. (2 marks)

- (b) Close and reopen the file to show the password prompt, and take a screenshot. (1 mark)

Task 11: Encryption

Using **one** of the methods below, encrypt a file or folder:

- Right-click the Backup folder → Properties → Advanced → *Encrypt contents to secure data*; **or**
- Create a password-protected ZIP using 7-Zip/WinRAR with encryption enabled; **or**
- Use BitLocker/VeraCrypt on a removable drive (if permitted).

Take a screenshot showing the encryption setting applied (for example, the padlock icon or the password prompt).

(Assessor check)
